# Group Exercise Class Descriptions

**Aqua Aerobics** – Non-Swimmers welcome! Work at your own pace in this non-impact cardiovascular and strength workout. Meet in the pool and use both shallow and deep water. Buoyancy belts are provided for those who do not swim or don't like to get wet hair! All classes are one hour long.

**Basic Abs & Stretch** – Begin with 20 minutes of energizing flexibility exercises, followed by 20 minutes of basic core strengthening exercises. It's a great way to build the strength and flexibility needed for Yoga, Pilates and Hard Core Training.

**Cycling** – Ride at your own pace on the New Star Trac Indoor cycles. The instructor guides you up a challenging hill, simulates a breakaway, riding in the pack and much more while pedaling to motivating music. You control the pace, you control the resistance! Perfect for athletes, as well as those looking for general fitness. Water bottle required.

**Pilates** – Focus on increasing flexibility and strength to build longer, leaner muscles. Gain awareness of muscle function and control in this mind-body workout that emphasizes core body stability.

**Pilates/Props** – This pilates class will use rings, balls, etc. to give you a more intense workout.

**Pumps & Abs** – Pump muscle conditioning brings the weight room to group exercise. Work all major muscles using dumbbells, body bars, resist-a-balls and weights. Class ends with abdominal conditioning.

**Pump/Aqua** – Wear your swim suit to this class that combines land and water fitness. Meet in the aerobics studio for a 45 minute pump class, then take a plunge for 45 minutes with aqua aerobics in the pool.

**Yoga** – Gain flexibility and strength in this mind/body fitness class. Relieve stress and learn proper breathing techniques, skeletal alignment and muscle control in a peaceful environment.

**Yoga Ball** – Using a ball for stability, this flexibility class will help you gain strength and control while relieving stress.

**Yoga Sculpt** – A great combination of yoga postures and challenging traditional weight training movements. This class is designed to increase strength and flexibility using dumb bells, tubing, body bars and resist-a-balls for an incredible workout.
